# Comprehensive healthcare for Lincoln County's generations...

At North Basin Medical Clinics, it's all about family. Not only have we been caring for your family for four generations, but we're committed to you through all life's stages — from newborn to adult.

To better serve our friends and family, North Basin Medical Clinics has three convenient healthcare clinics throughout Lincoln County — Davenport, Reardan & Wilbur.

## Our Primary Care & Family Practice includes...

- Pediatrics & Well Child Exams
- Men's & Women's Health
- Geriatrics & Aging Issues
- Sports Medicine & Athletic Physicals
- Fracture Treatment and consults with visiting Orthopedic specialists
- Laboratory including immunizations, blood screens & draws, urinalysis, pregnancy tests, employment drug testing
- Cardiac Care including EKG, treadmills, ambulatory monitoring, Echo Cardiography, Automatic External Defibrillators and consults with a visiting Cardiologist specialist
- Osteopathic Manipulation
- Minor Surgery & Stitches
- Diabetes Management & Education
- Asthma & Allergy Management
- Weight Loss & Diet Issues
- Mental Health
- Family Planning Options & Issues

**Full-service Radiology and Physical Therapy services are available just steps away at Lincoln Hospital.**

## Pediatrics

Our family physicians and mid-level health care providers at the Davenport, Wilbur and Reardan clinics specialize in “kid-care” and offer all aspects of pediatrics in their practices. Well child exams, immunizations, sick call, injury treatment, sports physicals and management of childhood diseases are what we're here for. We even offer prenatal care. Parents are encouraged to be a proactive part of that care. Our providers listen to your concerns and family needs and integrate them into your child's care plan whenever possible.

## Women's Health

Women's lives are full and complex. Our bodies are equally intricate, and finding a healthcare provider who understands our needs and listens to our concerns is a must when it comes to taking charge of our health.

At NBMC, our providers are dedicated to women's needs. To prove it, we've started a model women's health program to target the following issues...

- Mammography & Breast Health
- DEXA-Scan & Osteoporosis Management
- Pap Testing & Cervical Cancer Prevention
- Family Planning & Sexual Issues
- Menopause & Hormone Replacement Therapy
- Cardiovascular Health
- Unwanted Hair, Scar & Blemish Removal

NBMC also offers comprehensive women's surgery services with our caring female surgeon Deanna Huntwork, DO. To find out more about Dr. Huntwork, our women's program or services, log onto [www.lincolnhospital.org](http://www.lincolnhospital.org) and click on **Women's Health**.

## Men's Health

Father. Son. Brother. Uncle. No matter how you cut it, your family needs you strong and healthy. To ensure this, our providers are committed to men's health including annual physical exams, comprehensive blood testing for cardiac health and prostate cancer screens. We also treat sports and work injuries and give DOT & flight physicals.

## Senior Services

As we age, our healthcare needs often multiply. Risk for many diseases and complications increase dramatically.

Our physicians are committed to keeping up with the changes in your health and medication regimen. We also have access to specialty services at Lincoln Hospital including a registered dietitian, staff social worker, acute care & surgery, physical therapy, assisted living and long term care.

## Patient Financial Services

NBMC is a subsidiary of Lincoln County Hospital District #3— a public hospital. Under Federal law, some basic services are available even if you cannot pay or do not have medical insurance. NBMC does participate in the Medicaid Program.

NBMC accepts most major insurance plans. To find out if your carrier is on our list of insurances, please call us at (509) 725-2548 or log on to [www.lincolnhospital.org](http://www.lincolnhospital.org) and click on **North Basin Medical Clinics**.
